

# 2015-16 Impact Report

As the world's population continues to grow, so do other challenges that impact the global food supply. Whether its hunger, malnutrition, or climate change, our global food supply must be left in the hands of capable stewards.

Feeding Tomorrow, the Foundation of the Institute of Food Technologists, is working to bring the best and brightest minds to the science of food profession. Through scholarships, internships, partnerships, and by leveraging our global community's knowledge, **we are equipping the next generation of food science professionals** to tackle these big challenges.

## In 2015-16 Feeding Tomorrow...

Introduced

**80**

high school students and teachers to the food science profession at IFT16.

Awarded more than

**\$115,000**

in scholarships and travel grants.
